GOBY

COMPACT - PORTABLE - WIRELESS

Innovation for Pelvic Health

SMALL IS BEAUTIFUL

FEATURES AND BENEFITS

As the world's most compact urodynamics system, Goby is LABORIE's market-leading machine designed specifically for clinic and mobile use. This portable, modular and wireless device offers a unique combination of features to enhance your practice.

FULL URODYNAMICS TEST CAPABILITY

- Perform all standard clinic procedures including Uroflow, Cystometrogram (CMG), Pressure Flow Study, Urethral Pressure Profiles (UPP), Stress Tests & Leak Point Pressures

WIRELESS AND MODULAR DESIGN

- Maximize convenience for both clinicians and patients with the combination of battery power and Bluetooth® technology

VARIABLE MOUNTING OPTIONS

- Choose the Goby set-up to suit your clinical needs with Cart, Procedure Chair, IV Pole, Tabletop or Travel Case options available

OPTIONAL ACCESSORIES

- Enhance the system to make your workflow easier with a UPP Puller, Infusion Transducer, Commode Chair, Uroflow Stand or Remote Control

ADDITIONAL APPLICATIONS

- Specialized options for different procedures including Clinic Urodynamics, Mobile Use, Ambulatory Studies, Goby EQ (EMG & Uroflow) and ARM (Anorectal Manometry)
